Invoice Automation

Our invoice solution automates and centralizes the accounts payable (AP) workflow for media agencies, seamlessly integrating with Workamajig to streamline processes, improve efficiency, and enhance visibility across an organization.

Features:

- Automates invoice data entry
- Eliminates emailing invoices throughout the agency for approvals
- Visibility into invoice bottlenecks
- Built-in workflows for discrepancy resolution

Agency is a good fit if:

- Staff overwhelmed by managing invoice entry
- Resource constraints due to limited staff and/or high growth
- High volume of clients and campaigns
- Data-driven and focused on increasing efficiency
- Vendor satisfaction is important to them

Payment Automation

AvidXchange FastPay (formerly ePay) is an epayment platform that integrates with Workamajig to digitize all payments.

Features:

- Optimize all payments through virtual credit card, enhanced direct deposit, check and ACH
- Eliminate AP team management of vendor payment policies
- All payment data integrated and updated in Workamajig
- Detailed reporting for easier reconciliation

Agency is a good fit if:

- They buy media
- Process payments through a bank, which may include cutting or losing too many checks
- Adding new customers at scale and looking for a new payment process
- Looking to add a new income stream or price conscious
